

# NOPTA Forms Guidance – Greenhouse Gas

NOPTA has prepared this document to assist applicants and titleholders in making valid applications, notifications and nominations relating to titles administration, under the *Offshore Petroleum and Greenhouse Gas Storage Act 2006* ([the OPGGS Act](#)) and the *Offshore Petroleum and Greenhouse Gas Storage (Resource Management and Administration) Regulations 2011* ([the RMA Regulations](#)).

For an application to be considered validly made, and processing to begin, NOPTA requires:

- the application to be accompanied by any information or documents required by the form and submitted within any prescribed timeframes
- a correctly executed approved application form to be lodged
- the fee to be paid (if an application fee is required).

This document has been developed as a general guide only. It is subject to and does not replace or amend the requirements of the OPGGS Act and associated regulations, which should be read in conjunction with this guidance.

Before relying on this material, users should carefully evaluate the accuracy, currency, completeness and relevance of the information, and obtain independent legal or other professional advice relevant to their particular circumstances. This document will be reviewed and updated as required.

# General Application Guidance – Greenhouse Gas

## Submission details

For details on how to submit your application please refer to <http://www.nopta.gov.au/forms/index.html>

Applicants will receive confirmation of receipt from NOPTA informing them of the date that all the application requirements were met, which will be the date that the application is validly made.

## Approved manner and form

The OPGGS Act and RMA Regulations require applications to be made in the manner and form that is approved by the Titles Administrator and published on [NOPTA's website](#).

Please refer to [NOPTA's website](#) for the approved manner and form to be used when making applications.

## Signatures

For guidance on how to sign NOPTA forms, please refer to the:

## FIRB

The Australian Government welcomes foreign investment for the significant benefits it provides, while recognising the need to ensure investments are not contrary to the national interest. Foreign investment has helped build Australia's economy, and it will continue to enhance the wellbeing of Australians by supporting economic growth and innovation into the future. Without foreign investment, production, employment, and income would all be lower.

The foreign investment review framework is set by the Foreign Acquisitions and Takeovers Act 1975 (**FATA**) and requires foreign investors to notify the Treasurer of proposed foreign investments that meet certain criteria. Foreign investors should familiarise themselves with Australia's foreign investment framework and ensure they comply with the law. Failure to do so may result in the imposition of penalties.

The OPGGS Act operates independently to the FATA. In providing advice to the relevant decision maker under the OPGGS Act, NOPTA does not assess whether foreign investment approvals are required under the FATA.

The decision as to whether an application is required is ultimately up to the foreign investor, after considering the guidance on the Australian Foreign Investment Review Board (**FIRB**) website and making an assessment of their own particular circumstances. Proposals for foreign investment in Australia should be submitted to the FIRB.

If a foreign investor submits an application yet considers its proposed transaction may not be subject to Australia's foreign investment review framework, they may provide reasons for this contention in their application. If FIRB then considers that the foreign investor did not need to make an application, the foreign investor will receive a refund of the fee.

If a foreign investor does not submit an application for a planned transaction that does require notification to the Treasurer, penalties may apply. In this instance, the foreign investor will bear the risk of a prohibition or disposal order.

If NOPTA is made aware of a pending application under the FATA, for administrative efficiency, NOPTA will advise to the relevant decision maker to wait for the FIRB decision prior to a decision under the OPGGS Act.

Evidence of a foreign investment decision should be provided to NOPTA with the submission of an applicable OPGGS Act application. If it is not available at the time of submission, it will need to be provided separately before a decision is made on a relevant OPGGS Act application.

Further information on Australia's foreign investment policy including guidance on the foreign investment review framework can be found on the FIRB site at [www.firb.gov.au](http://www.firb.gov.au) (link is external)

## Notification of becoming a registered titleholder (Form 2)

In making a notification under subsection 452A(2) of the OPGGS Act, please note the following:

- Titleholder to complete the information and give NOPTA and NOPSEMA the completed form within 30 days of becoming a titleholder. Failure to provide this notice is an offence – see subsection 452A(7) of the OPGGS Act.
- In the case of multiple titleholders, each titleholder is required to complete a separate form upon becoming a titleholder.
- A [separate form](#) is required for each title held by the titleholder.

## Notification of change of contact details (Form 3)

In making a notification under subsection 452A(5) of the OPGGS Act, please note the following:

- This form is for each titleholder who have previously lodged form 1 or 2 and whose contact details have changed.
- Titleholder to give completed notice of change of contact details to NOPTA and NOPSEMA within 30 days of change of contact details. Failure to provide this notice is an offence – see subsection 452A(7) of the OPGGS Act.
- A completed [Form 3](#) is to be provided to NOPTA and NOPSEMA.

## Multiple titleholders nomination of single titleholder for service of documents (Form 4)

In making a nomination under sub regulation 11A.05(2) of the RMA Regulations, please note the following:

- This form is to be executed jointly by all titleholders.
- A [separate form](#) is required for each title.
- The giving of this notice is optional; however, titleholders are encouraged to give the notice as it will simplify communication by regulators with titleholder groups.
- The completed form is to be provided to NOPTA and NOPSEMA

## Revocation of nomination of single titleholder for service of documents (Form 5)

In making a revocation under sub regulation 11.05(5) of the RMA Regulations, please note the following:

- A [separate form](#) is required for each title
- The completed form is to be provided to NOPTA and NOPSEMA

## Multiple titleholders nomination of single titleholder for eligible voluntary action (Form 6)

In making a nomination under subsection 775C(2) or 775CA(2) (as applicable) of the OPGGS Act, please refer note the following:

- This form is to be executed jointly by all titleholders.
- The nomination must be given prior to taking eligible voluntary action.
- A [separate form](#) is required for each title.
- The giving of this notice is optional.
- The completed form is to be provided to NOPTA.

An 'eligible voluntary action' is defined under section 775A of the OPGGS Act as:

- making an application
- giving a nomination (other than nominations given under section 775C or 775CA or RMA regulation 11A.05)
- making a request
- giving a notice
- giving a plan
- giving an objection

to the Joint Authority, Cross-boundary Authority, Titles Administrator, the responsible Commonwealth Minister or NOPSEMA where the making of an application, request etc, is permitted but not required under the OPGGS Act or associated regulation i.e., 'voluntary'. For example, applying for renewal of an greenhouse gas assessment permit is an 'eligible voluntary action'.

If there are two or more registered holders of a greenhouse gas title, titleholders can take eligible voluntary action in two ways:

1. Jointly, signed by all titleholders, or
2. If a nomination is in place under subsection 775C(2) or 775CA(2) (as applicable) of the OPGGS Act, the nominee can then sign an action on behalf of the registered holders for the title.

It is no longer compulsory to make a nomination. Also, titleholders may now elect to take actions jointly, even when a nomination is in place.

An eligible voluntary action nomination is given by written notice to the Titles Administrator: subsection 775C(2) or 775CA(2) (as applicable) of the OPGGS Act. The OPGGS Act does not provide for conditional nominations to be made, i.e., with reference to a timeframe or activity. The nomination must be made in the approved manner only: subsection 775C(3) or 775CA(3) (as applicable), Form 6.

If the registered holders for the title change it is suggested a new nomination signed by all the current registered holders is submitted.

## Multiple titleholders revocation of nomination of single titleholder for eligible voluntary action (Form 7)

An eligible voluntary action nomination will remain in place until it is revoked. Any registered holder for the title may revoke the nomination: subsection 775C(6) or 775CA(6) (as applicable) of the OPGGS Act, Form 7.

If a titleholder revokes a nomination, they must give written notice of the revocation to the other titleholders as soon as practicable: subsection 775C(6A) or 775CA(7) (as applicable) the OPGGS Act.

Any eligible voluntary actions taken by a nominee before the nomination is revoked will remain valid: subsection 775C(7A) or 775CA(9) (as applicable). For example, an application submitted prior to a revocation of nomination will be considered a valid application even if the nomination is revoked prior to a decision by the Joint Authority.

Please note a [separate form](#) is required for each title.

The completed form is to be provided to NOPTA.

## Declaration of experience and disclosures (Form 8 and 9)

The OPGGS Act states the decision-maker must consider the matters in section 695YB and other matters considered relevant for the grant of certain titles (for example initial grants of greenhouse gas assessment permits, infrastructure licences, pipeline licences), transfer of titles, and approval of a change in control of a registered holder.

In determining whether an applicant or other person (as relevant) is suitable, the decision-maker will consider a range of factors including (but not limited to): financial resources, technical experience, and advice available, history of compliance, corporate governance arrangements and any previous liquidation or bankruptcy events. The decision-maker has the discretion to request additional information where needed to assist and inform its consideration of an application.

Each applicant or other person (as relevant) is required to make the relevant declarations to NOPTA:

- for a person, including an officer of a body corporate, a [Form 8 Natural Person Declaration form – disclosures and experience](#) is required
- for a body corporate, a [Form 9 Body Corporate \(Company\) Declaration form – disclosures and experience](#) is required

As part of the declaration the applicant should include statements around their experience and for a body corporate, this attachment should include details of its project management experience and corporate governance arrangements.

Completed forms are to be provided to NOPTA.

If a Form 8 or 9 has previously been made, and a change of circumstances has not occurred, the previous Form 8 or 9 can be referenced. If a Form 10: Declaration of change of circumstances of a registered titleholder or applicant (section 695YC) has been submitted, the Form 10 may be referenced in the application.

For further guidance, please refer to the

- [Guideline: Applicant suitability](#)
- [Factsheet: Declaration of experience and disclosures](#)
- [Frequently asked questions: Declaration of experience and disclosures](#)
- [Financial Resources](#)

## Declaration of change of circumstances of a registered titleholder or applicant - Section 695YC (Form 10)

Section 695YC of the OPGGS Act requires that NOPTA and NOPSEMA are notified of events (changes of circumstance).

NOPTA and NOPSEMA must be made aware of any change of circumstance in line with section 695YC of the OPGGS Act as soon as practicable after the event occurs, including where an application is still under consideration.

A change of circumstance declaration ([Form 10 Declaration of change of circumstances of a registered titleholder or applicant \(section 695YC\)](#)) is required by:

- an applicant for the grant, renewal, or approval of a transfer of a relevant title
- a registered holder of a relevant title
- if the person referred above is a body corporate—a person who is an officer (within the meaning of the Corporations Act 2001) of the body corporate.

if affected by a change of circumstance.

The completed form is to be provided to NOPTA and NOPSEMA

For further guidance, please refer to the
